

The Four Interview Questions

1. What interests you about *this particular job* that you're interviewing for? (You can mention the job responsibilities, specifics about the company, shared values, etc.)

2. Why are you interested in a new position at this time? (You can be as honest as you'd like. For a general answer, you can talk about how you're "interested in new challenges.")

3. Can you give a story or two of "successes" at work?

4. Can you give a story or two of "challenges you learned from" at work?
